.Q: Could not load file or assembly 'System.Web.Http.WebHost.Razor I get the following error when trying to build my project: Could not load file or assembly 'System.Web.Http.WebHost.Razor, Version=4.0.0.0, Culture=neutral, PublicKeyToken=31bf3856ad364e35' or one of its dependencies. The located assembly's manifest definition does not match the assembly reference. (Exception from HRESULT: 0x80131040) This error is caused by web.config. I checked other similar questions, but I couldn't find anything to solve my problem. Any help is appreciated. A: Razor is not supported on the Client Profile version. Brixton Warehouse The Brixton Warehouse is a former warehouse in Brixton, south London. During the 19th century, it was the location of the main steam pumping station for the Metropolitan Water Board of London. Following the Metropolitan Water Board's closure, the building was used by the Greater London Council's South London Development Corporation as a warehouse and, since 1998, as the home of the Brixton History Centre. It has been restored and is a Grade II listed building. History By the 1840s, Brixton was being developed as an increasingly prosperous suburb of London, and its water supply increasingly relied on pumped steam. In 1845, the Metropolitan Board of Works was established to build the Metropolitan District Railway, which would link the area to the expanding suburbs of London. In 1848, the Board of Works was given the task of constructing a main water supply pumping station, which would consist of a four-storey structure for the storage of water. By 1850, a contract had been given to Thomas Yeomans and Sons to build the main pumping station for the Brixton Waterworks. The works were completed in 1862. In the 1870s, the area around the station was developed as a new residential district called Brixton Road. By the 1890s, the area began to be subject to gentrification, and it was decided that the main pumping station, by then in disrepair, would be demolished. In 1894, the Brixton Board of Works was established, with an allocation of £35,000 for the demolition of the waterworks. The works were completed by 1896, and the ground floor of the main

Jul 14, 2018 . How can I get rid of the out.php file which is generated by the extension? A: It's only a warning, not an error. If you want it to go away, run your post_action hook in your theme's functions.php and make sure to exit early. if(!function_exists('hide_plugin_out')) { add_action('init', 'hide_plugin_out'); } function hide_plugin_out() { return; } Be careful doing this, the JS will stop loading and you might get error messages and even 404's on your site. Mike Shula Michael Alexander Shula (born October 8, 1960) is an American football coach and former player. He is the offensive coordinator at LSU. Shula is the son of National Football League coach Don Shula. Playing career Shula played in the 1982 Blue–Gray Football Classic. Coaching career Shula was the offensive coordinator and quarterbacks coach at the University of Florida. In his first season as offensive coordinator, the Gators went 11–1 and won the Southeastern Conference Championship. On January 15, 2008, he was promoted to offensive coordinator at LSU. In 2011, LSU offensive coordinator Cam Cameron and Shula won the Broyles Award, given annually to the nation's top assistant coach. Personal life Shula's son, Nick, is a quarterback at Alabama.
