A: The items you are seeing are because you are in an inspection collection. In that case you can upload a photograph. Q: How to get the coordinates of a image on a imageview in android I want to add a button to each imageview in my app and give a background on that button for example a rounded rectangle and i want to draw a image on the top left corner and a text below it. But i can't figure out how to get the coordinates of the imageview My xml:
My java code: final int[] width = new int[50]; ba244e880a
