WindowBlinds - Skin your Windows® desktop interface with WindowBlinds™.. The actual developer of the software is Stardock Corporation. Stardock SkinStudio - Windows skinning software by Stardock Corporation. Category:2003 software Category:Desktop environment software Category:System administration Category:Windows-only software Category:Skinning Category:Windows-only freewareProduct Details Lucy Power Plant Charm Lucy's Power Plant is one of the coolest items on our site. That's because with its brilliant color palette and its space-age design, it almost looks like it's coming straight from the future. Lucy is a robot and you can use the Power Plant to change the way she looks while incorporating the royal vibe of the Power Plant. You'll have so much fun playing with it that you'll want to do the whole set. Its perfect for imagining adventures in outer space or even fun sci-fi games. The Power Plant is also a fashion accessory – so you can show off your knack for style while also trying out a new color. Power Plants are available in three colors: Don't know which color to get? Read our primer below. The Power Plant is an American classic. It was released in 1963, and featured on the original Star Trek TV show,
