7.20.17 Today, we are delighted to announce a new element to Cambridge English: Young Learners, a suite of Cambridge English practice materials for young learners (aged 5-11). Cambridge English: Young Learners includes a range of activities including worksheets, a selection of activities based on themed worksheets, questions and vocabulary exercises. Each activity is available for students aged 5-11. This additional element to the existing suite of Cambridge English materials for 5-11 year old learners is designed to ensure that young learners remain within the scope of the revised, challenging and rigorous assessment for learning framework. It is also a good reflection of the diversity in the Cambridge English learner community. We would love to hear your feedback on these new practice materials, or if you have any other suggestions to improve the suite of activities for 5-11 year old learners in the future, please let us know.

7.20.16 For nearly three decades, the vocabulary exercises in Cambridge English: Young Learners have been the reference standard for teachers who have been looking for a way to help students master vocabulary in order to increase their confidence and understanding of texts. Starting today, we are releasing new vocabulary exercises to extend the vocabulary support available to students and teachers. The collection includes a selection of existing and new vocabulary exercises, covering a range of content areas including the following: travel, communication, people, the environment and economics. Vocabulary teachers can now find any vocabulary exercise from the Cambridge English: Young Learners Suite, with a range of progress indicators to support their teaching. For a complete list of the vocabulary exercises included in Cambridge English: Young Learners, and how they can help your students, please read more. We are also excited to announce that all our content packs now include sample answer sheets. This is something we have been working on for some time, and we are delighted to be able to offer this new and useful resource to teachers. If you have any feedback on the progress indicators or sample answer sheets in the vocabulary exercises included in Cambridge English: Young Learners, please let us know.

7.16.16 From today, teachers can start using the new pre-view of the Cambridge Learner Assessment Framework for Young Learners to plan and assess students' work. It will also make available the changes to the content areas and grade descriptors over the next few months. You f3e1b3768c
