Stop all installed updates. Schedule restart of the Windows Update service. Schedules the restart of the Windows Update service with an argument. Q: Android - Marker shows a temporary error and disappears, but i cannot get the new location I am new to Android programming. I am trying to track location of my device. My code runs perfectly. I can get the current location of my device. But when I stop using the application or close it, the marker shows a temporary error and disappear. But i cannot get the new location. My code is as follow: `AndroidManifest.xml MainActivity.java package com.example.location; import android.app.AlertDialog; import android.content.Context; import android.content.DialogInterface; import android.content.Intent; import android.location.Location; import android.location.LocationListener; import android.location.LocationManager; import android.os.Bundle; import android.support.v4.app.FragmentActivity; import android.view.Menu; import android.view.MenuItem; import com.google.android.gms.common.ConnectionResult; import com.google.android.gms.common.GooglePlayServicesUtil; import com.google.android.gms.common.GooglePlayServicesUtil.ConnectionCallbacks; import com.google.android.gms.common.GooglePlayServicesUtil.OnConnectionFailedListener;`

```
import com.google.android.gms.location.FusedLocationProviderClient; import
com.google.android.gms.location.LocationServices; import
com.google.android.gms.location.LocationRequest; import
com.google.android.gms.location.LocationServices; public class
```
