## Easy Text To HTML Converter With Serial Key Free Download (Final 2022)

Easy Text To HTML Converter is a freeware application created to quickly convert text files to HTML. The well-organized GUI of the program provides one-click access to the main features via a tabbed design, while all the other options are available under a separate entry in the “File” menu. Basically, Easy Text To HTML Converter can convert a single or multiple files at once, but at the same time, the application also support text blocks and table to HTML conversion. Regardless if you’re planning to convert either a single or several text documents, the whole task comes down to selecting the input and output items. On the other hand, the table to HTML conversion job relies on some other configurable parameters too, such as visible borders and separators. As for the configuration screen, Easy Text To HTML Converter lets you configure formatting and the conversion process by defining the symbols to be replaced. The conversion task takes only a few seconds and that’s clearly a good thing, especially when taking into account that the app remains very friendly with hardware resources all the time. Easy Text To HTML Converter works smoothly on all Windows versions and doesn’t require administrator privileges on Windows 7 workstations. In the end, Easy Text To HTML Converter proves to be a very handy product, boasting exactly the elements users need the most: a well thought out interface, an effective conversion engine and the essential configuration options to customize the whole experience. converts text files to HTML files with exactly the same tags and formatting. converts text files into HTML files (Microsoft HTML Help format) easily.
