It can be used as a full-fledged design tool or as a way to arrange or save files that are of a different file type. To save a file as a Photoshop document: 1. Select File→Save As and choose "Photoshop" from the Application drop-down list, and then select a location where you would like to save your file. By default, Photoshop opens a new document. If you want to open an existing document, choose File→Open. In the Open dialog box, you'll see an option to find files. If you'd like to see the document in its proper file format, choose the "Save for Web and Devices" option. 2. Click the Browse button, and select a file from your hard drive. The file browser should display all the files on your computer and wherever you've stored the files saved to disk. Click the file to select it.

As a passionate manga reader, I want to develop an instinctual need to understand Japanese culture, history, and literature. To do so, I have been studying the works of Japanese artist Yukio Oda and his art collection, Oda-no-Mikoto (after the Shinto deity of fertility, war, and the country; 大田の御子). Intellectually, Oda's artworks often point to and represent Japanese values and mores; socially, his works are an expression of his overarching desire for the creation of Japan. Oda's presentation of manga within the context of his art collection makes me ask my own questions: How do manga creators present the message and art of Japan? Are they as conscious of the Japanese art and history that surrounds them as Oda? How does Oda-no-Mikoto influence Oda's art and Japanese pop culture? Oda-no-Mikoto was commissioned by Oda's publisher by his grandfather, Toru Tamura, in 1928. Images from Oda-no-Mikoto remain within the Tamura Corporation, and are exhibited as an art collection in Tokyo. Oda refers to it as "my collection," highlighting its importance to his life. The collection was officially opened to the public in March, 1928. Its first exhibition, held in the Biwako Theatre (比叡劇場), was an opportunity to introduce Oda-no-Mikoto to the world. The exhibition was inaugurated with the slogan "Japan's Man and His World of Art" (日本の男とその芸術の世界). In 1929 the exhibition travelled to Osaka, Nagoya, Yokohama, and Fukushima. One of Oda's panels for Oda-no-Mikoto, titled "Promise" (約束), features a woman and a baby. The woman is wearing traditional clothing with her face painted in a god's mask, her hair decorated in the style of a samurai headdress, and her body painted as if to be a shrine maiden. This image serves to relate to the female child, as a pious woman. The child is holding a pig, evoking the Chinese notion of a son being born with a pig as his auspicious tal
